

Transfer of securities to BNP Paribas Arbitrage Issuance B.V. (“BNPP IBV”) pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 19 November 2015, The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) (“**RBS**”) and BNP Paribas S.A. (incorporated in France and with its registered office at 16, Boulevard des Italiens, 75009 Paris, France) (“**BNPP**”), acting through its London Branch, announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme, whereby certain assets and liabilities related to RBS’s structured retail investor products and equity derivatives business would be transferred to BNPP pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the “**Part VII Scheme**”).

The Part VII Scheme took effect on 7 December 2015 (the “**Effective Date**”).

On the Effective Date, BNPP, acting through its London Branch, became the issuer of those securities originally issued by RBS that were transferred pursuant to the Part VII Scheme. Immediately after the transfer of those securities to BNPP, acting through its London Branch, the role of the issuer under those securities was transferred, also under the terms of the Part VII Scheme, to BNPP IBV, a wholly owned subsidiary of BNPP. As part of the Part VII Scheme, BNPP guarantees all the obligations of BNPP IBV arising in respect of the transferred securities.

Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to “RBS”, in its capacity as issuer of the transferred securities, being construed as references to “BNPP IBV”.

Details of the securities that have transferred under the Part VII Scheme as well as further information on the Part VII Scheme generally can be viewed at <http://warrants.bnpparibas.com/>

Automatic Termination: If the value or performance of the Underlying on any date meets certain specified conditions, it will affect the value of the Securities, and will potentially lead to the automatic termination of the Securities.

Positive Correlation: All other things being equal, positive performance of the Underlying will have a positive effect on the value of the Securities at maturity/expiration, and negative performance of the Underlying will have a negative effect on the value of the Securities at maturity/expiration.

Entitlement Less Than 1: Any increase in the value or performance of the Underlying will have a lesser effect on the value of the Securities at maturity/expiration than would have been the case if the Securities had been exposed to one unit of the Underlying.

Leverage: All other things being equal, positive or negative changes in the performance of the Underlying will have a proportionately larger effect on the value of the Securities, and

therefore leverage has the potential to magnify gains or losses of the Securities.

No Capital Protection: All other things being equal, the value or performance of the Underlying will affect the value of the Securities at maturity/expiration, to such an extent that the value of the Securities at maturity/expiration may be zero.
